

# 1 MILLION CALIFORNIANS FACE CUTS TO CALFRESH

The US Department of Agriculture is looking to impose stricter rules on the Supplemental Nutrition Assistance Program (SNAP), known as CalFresh in California. This will negatively impact more than 1 million people throughout California, especially older adults and people with disabilities. We need your help to tell the USDA that taking away SNAP benefits from children, seniors, and working families will only lead to more people facing hunger in our country.

Fill out the back of the postcard to tell USDA why SNAP / CalFresh is important to you and why this would be harmful.

**PLEASE NOTE** All written comments submitted in response to this proposed rule will be included in the record and will be made available to the public. Please be advised that the substance of the comments and the identity of the individuals or entities submitting the comments will be subject to public disclosure. FNS will make the written comments publicly available on the internet via [www.regulations.gov](http://www.regulations.gov).

## RE: PROPOSED RULE

*Supplemental Nutrition Assistance Program:  
Standardization of State Heating and Cooling Standard Utility Allowances*

*RIN 0584-AE69*

*Docket ID Number FNS-2019-0009*

**Dear Secretary Perdue,**

I am writing to oppose the cut to SNAP / CalFresh by restricting States' ability to set their own standard utility allowances. The proposal would force families struggling with hunger to choose between staying warm this winter and putting food on the table.
