

Why is SNAP important to San Mateo County?

SNAP, known as CalFresh in California, is our nation's first line of defense against hunger. With the other federal programs including the National School Breakfast and Lunch programs, TEFAP, WIC and others, the nutrition safety net reduces hunger and poverty, improves health and learning, increases productivity, creates jobs, and invests in the future of our communities.

1 in 8 Californians suffers from hunger.¹ 23 percent of California children live in food insecure households.²

We ask every California Member of Congress to protect and strengthen the federal nutrition programs. Every Californian should have access to the food they need to live healthy and productive lives.

SNAP benefits

- SNAP brought \$44,710,000 in 100% federally funded benefits to San Mateo County last year.³
- As those benefits circulate in the County, they created approximately \$80 million in total economic activity.⁴
- These benefits support some 445 San Mateo jobs by providing markets for farmers and customers for retailers.⁴

SNAP participation

- SNAP benefits go to 28,100 people in San Mateo – roughly 4 percent of everyone who lives in the County.³
- 70 percent of all San Mateo SNAP recipients are children, and 16 percent are seniors.⁵

Lost dollars

- In 2016, SNAP reached just 44% of everyone eligible in San Mateo.⁵
- If SNAP reached 100% of those eligible, San Mateo County would annually see an additional \$50 million in benefits, and \$90 million in total economic activity.⁶
- Nationwide, federal nutrition programs provide 19 of every 20 emergency meals – private charity could never address the need for food.
