

FOOD BANKS AS GROWERS

Is this a viable option
for increasing
food supply?

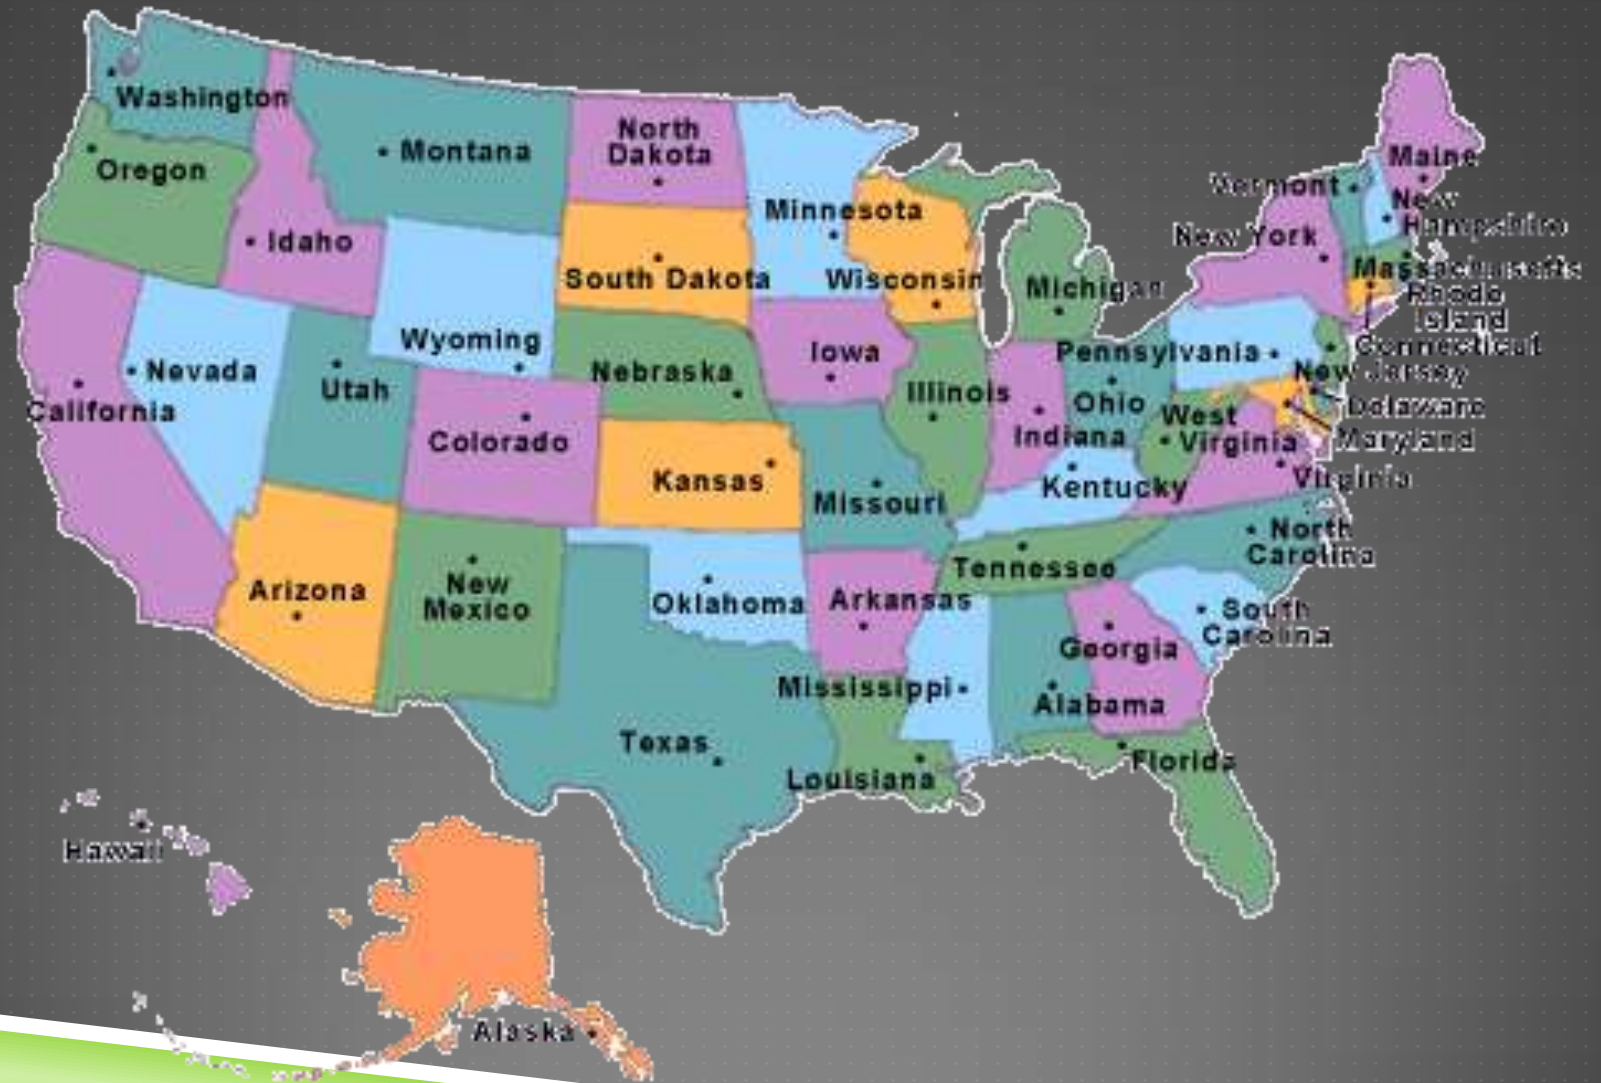

WHY?

HISTORY

CONCEPTS

A decorative graphic at the bottom of the slide. It features a bright green gradient area on the left and right sides, which meet at a central black triangle pointing downwards. The entire graphic is outlined with a thin white border.

FOOD SECURITY

- ▶ Ensuring that all people at all times have both physical and economic access to the basic **food** that they need” (FAO)
- ▶ People have enough food

FOOD SOVEREIGNTY

- ▶ **Food sovereignty** is the right of peoples to healthy and culturally appropriate **food** produced through ecologically sound and sustainable methods, and their right to **define** their own **food** and agriculture systems.
- ▶ How that food is grown and delivered

GROWING

LAND

LABOR

CAPITAL

INNOVATIONS

OTHER CONSIDERATIONS

CONCLUSIONS

A decorative graphic at the bottom of the slide consisting of a black horizontal band above a green area. The green area is divided by a white line that forms a wide 'V' shape pointing downwards, creating two green triangular sections on either side of the black band.

LOCAL ASSETS

- ▶ What do you already have ?
- ▶ What is available locally?
- ▶ What knowledge exists in the community?

CREATIVE SOLUTIONS

- ▶ Limited transportation costs
- ▶ Organically grown
- ▶ Reduce carbon footprint
- ▶ Nutritionally sound
- ▶ Community involvement
- ▶ Social enterprise
- ▶ Job development
- ▶ Culturally appropriate
- ▶ Community Kitchens
- ▶ Nutrition education opportunities

THANK YOU
