

# Pandemic EBT 2.0: Outcomes Report

## Pandemic EBT 2.0

Pandemic EBT (P-EBT) 2.0 was a disaster response program intended to support school-aged children and young children under age 6 who lost access to free or reduced-price school meals due to pandemic-related school facility or childcare facility closures during the months of October 2020 through August 2021.

The program provided food benefits to school-aged students who would have received free or reduced-price school meals through the National School Lunch Program or School Breakfast Program if not for the school facility closure. Young children under 6 were eligible if they were receiving CalFresh benefits and living in a county where at least one school was distance learning or a hybrid of distance learning and in-person learning.

P-EBT 2.0 was administered by the California Department of Social Services (CDSS) in partnership with the California Department of Education (CDE).
